- Indoor soccer for tots are booked for 3 weekends, dates to follow.

Adjourned 8:05pm  
Next meeting Sept 10

## **CRYSA ADMINISTRATORS REPORT FOR AUGUST 2007**

What a terrific turn out for our July meeting this year. All volunteer positions have been filled. Now we can focus on recruiting division managers and coaches for our various age groups.

The Fall season is only a short month away. Fields have been booked.

Congratulations to Ken Garraway on winning the Nationals with his U14 girls. This was the team that he introduced to our membership at the CRYSA banquet. The U14's were the only BC team to secure gold.

A total of 5 Provincial teams will have spent training time in our town this year thanks once again to Ken. Several of our teams were able to play against these elite teams.

August 25<sup>th</sup> will be our final live registration and will be held at the clubhouse from 10 to 3pm. If you have some spare time please come and lend a hand.

Allison Wood and Susan Leask will be the equipment managers Susan will continue to look after shirts and pinnies, while Allison will take care of the rest.

CVUSC have once again expressed interest in interlocking with us in some divisions. This is good news as some of our age groups may only field one or two teams.

Thanks to David Paquin of Tim Hortons for dropping off 100 soccer balls for the U6 division on Sunday afternoon. I have received interest from both Real Canadian Superstore and Save-On Foods in sponsorship.

There will be a Wet your whistle clinic on August 28 and a Class 5 clinic on August 29. Malcolm Cowie will be running these events. We need a game for the wet your whistle referees to officiate. Traditionally it has been a younger squad of U11 or U12's. Please call me if you can provide the players. Further details to follow.

This is my final administrators report! I can't really believe it. I would like to express my sincere gratitude to all of our members who have worked with me and made my time with the club so enjoyable. I am sure that the club will only become stronger over the next few years with the revamped crew. It's been a great ride!

Graham Sibley CRYSA Administrator
