- Discussion on UISA league proposals Committee chaired by Henry with other members to bring forward to UISA.

Next Meeting: June 18th, 2007 7pm. This is our Annual General Meeting

CRYSA Administrators Report for May 2007

Spring League has been nothing short of spectacular this year with a registration of 960 players. Next Spring we should prepare for a registration of 200 players in the MacDonald's Tots program as we have 168 registered and had to turn away 30 more.

Clubhouse will be rearranged as far as the equipment is concerned which will allow access to our one and only change room again. I have broken down some of the Umbro goals and unfortunately only one goal can fit into the new holdalls. Need to buy more.

Fields are in very good shape although there have been some concerns with the height of the grass. This is not the fault of the City crew but came about because the City did not submit their purchase order for mowing equipment in a timely fashion. Some soccer dads tried to do the job themselves however they were spotted by the Parks crew who managed to get the job done.

I have received several calls regarding broken goals and missing locks. All missing locks were replaced. Robron lock is missing again. Posts fixed at Robron. Cedar lock replaced.

Congratulations to the U18 Girls Rona Breakers on their Island Cup success. The U14 boys Marine Harvest lost out to Bays United in a hard fought game as did the U16 girls. The U14 girls Thrifty Foods won their division at a tournament in Victoria which was a great way to finish their season.

Equipment. We have received 15 bags for our Umbro goalposts. Thanks to Ken Garraway for his donation of goalposts to CRYSA.

Banquet will soon be upon us. June 15th.

Tagday schedule has been completed and distributed to the division managers. This is a terrific fundraiser for CRYSA and we are looking for a new donation record on Tagday.

So please make sure that all of our teams participate.

Spring pictures are now coming in. I will let the Div Managers know when their pictures are ready for pick up.

I would like to see a Spring league wind up take place on June 24th. Division managers please contact me regarding this.

All outstanding equipment should be returned to CRYSA in a timely manner. Call me please at 923-2493.

Graham Sibley, CRYSA Administrator
